Registration

Once your school has subscribed to our service, your course tutor will be asked to provide PAI with a list of names and email addresses for designated Authorised Users. These students will be emailed and invited to register on the PAI website. If you have not received an invitation email please check your Junk/Spam folder. To avoid delaying access to the Portal add **do-not-reply@photoshelter.com** and **contact@performingartsimages.com** to your safe senders list.

Please note: Students should not contact PAI directly as we are not able to process individual registrations.

Set your password

As a first-time user you will be asked to create a password which, when used in conjunction with your email address, will be your Login. This enables you, as an Authorised User, full access to the PAI Portal.

Log In

Authorised Users can enter the PAI portal by clicking on the "*Login*" button. Enter your email address and password to access, view and download individual images from all the Collections represented by PAI.

Search

To find specific images Authorised Users may search all of our represented Collections by using the "*Search*" function in the top navigation bar. Authorised Users are also able to refine their searches using keywords including productions, performers, creatives, dates and locations.

Please note:

Only Authorised Users may download individual files from search results on the PAI Portal. The default daily limit for downloads is set at 100 images. There is no limit on searches and previews.

Any problems seeing the download links or small arrow, please contact the Site Administrator by replying to the registration email or using the “Contact” link, found in the top navigation bar.

Creating and Using Lightboxes

Lightbox is a tool to collect and view multiple images for a specific search or particular project. Lightboxes are primarily used collaboratively to enable multiple Authorised Users to view, comment and rate the selected images. Images, whether sourced from search results or from the different Galleries, may all be placed in the same shared Lightbox.

Authorised Users must be logged in to create a Lightbox. Authorised Users may share a Lightbox by emailing a link to other Authorised Users (e.g. tutor, colleague and/or the project group) who share the same permission.

Please note: Unshared Lightboxes can only be viewed by the Creator.

Adding Images to a Lightbox

Images can be added to a Lightbox by using either the “Search” or “Galleries” mode.

In the “Search” mode click on **Add to Lightbox** (see 1), **choose from an existing Lightbox** (see 2) or add to a new **Lightbox** (see 3). **Type in** a new name and confirm **by clicking Add to the Lightbox**.
